Take Action

You can COPY and PASTE these points.

- Congress has MORE than enough evidence of the Trump administration's constitutional overreach and the blatant breach of trust in the American people. Any Congress member following their constitutional oath should have no problem removing this disastrous, corrupt, and treasonous administration.
- The American people will not wait for Congress to do its job when all of our lives are on the line.
- Ask them--Are they traitors to the American people, or someone looking to protect Americans and the future of their children?
- Your inaction has already caused 100,000s of lost lives (600,000 being USAID cuts, most were children).
- Why has Congress refused to subpoena Elon Musk (head of DOGE)? Why weren't the DOGE data breaches investigated? Why hasn't Elon's interference with the Russian and Ukrainian war been investigated? If anything, that SCREAMS Congressional corruption and cover-up.
- Why are masked men permitted to terrorize our streets? Human trafficking has increased with the help of the US government.
- Why are you allowing blatant Conflicts of interest in the White House? The application at McDonald's is more strict.
- Is proving loyalty to Trump more important than the safety of Americans?
- Why were the majority of Republicans against releasing the Epstein files last year? Are there many members of Congress implicated in the files?
- Why hasn't there been not 1 investigation after Trump and Elon alluded to stealing the 2024 election?
- Ask the Ethics Committee why Representative Randy Fine and Tony Gonzales have not been expelled for their actions per their code of ethics?
- Ask them why they would rather spend 1.5 trillion dollars on war and death (plundering the deficit), but there will soon be 15 million Americans without healthcare. Why does Congress prioritize death over American lives?
- Are you being paid by foreign governments to betray the American people? That is called TREASON.
